

Name _____ Date _____

Classify and Categorize

Focus

When readers put things or ideas that are alike into groups, it helps them organize their thoughts and remember details in a story.

Classifying means putting similar objects, groups, or events together into a group or category.

Categories are the actual groups that similar things are put into.

Objects, characters, and events can often fit into more than one category.

Practice

Read the information in the chart below. Then, complete the chart.
